MEMORANDUM FOR: Clark Magruder  
Bill Studeman

FROM:

SUBJECT: Merchant and Fishing Fleet Intelligence

1. As an initial step toward providing the ICS support requested by the DNI, I would like to obtain from you (and ultimately from the other players) background information and views that will help to bound the problem and point to potentially feasible courses of action. These inputs can be provided by a combination of briefings, written material and joint discussions at a get together which should be scheduled as soon as possible. I would like to have the following subjects/questions specifically addressed:

- The DNI's goal is to allocate requirements and share responsibilities for collection management, processing and reporting on the merchant problem among user departments and agencies. What are the Navy's thoughts on how this might effectively be done?

2. Please notify me when ready on the above so that we can schedule the meeting. I would also ask that you review the ICS staff study on NOSIC mership/fishing operations done in 1980, indicating to me those significant aspects requiring correction or update.
